

I am an owner and listener of XM Radio. We purchased this radio mainly so that we would not be bombarded by constant commercials. We want to listen to music, weather and news without the constant annoying interruptions. We also travel constantly and with XM Radio we do not have to constantly search for a new station for every area we go into. I feel it is not up to the government or the National Association of Broadcasters to dictate what I can listen to on the radio. I urge the FCC to reject the NAB's Petition 04-160 and allow us the right to have the kind of programming that I want, demand and deserve.
